

**WITH PASSION AND EXPERIENCE**

# INTER STARTER

Inter Starter is a young company concerned with supplying automotive electromechanical components.

# WAREHOUSE

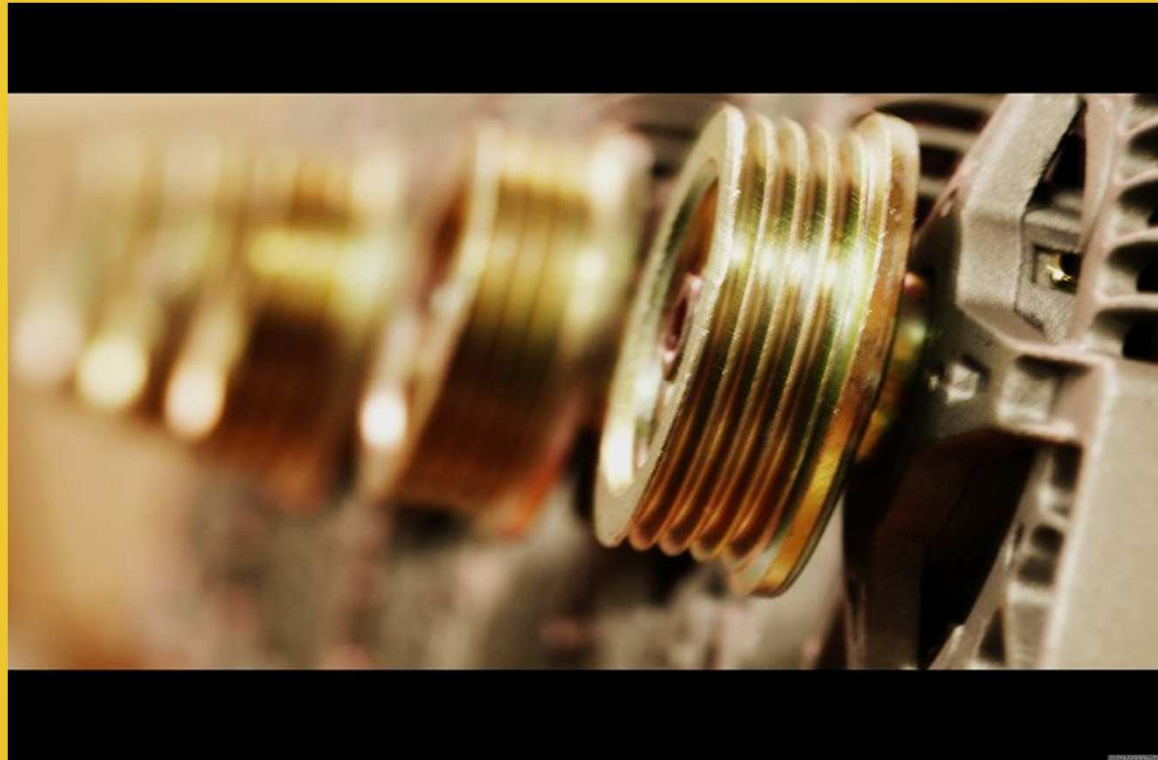

Our proposal is, above all, to provide our clients with complete starters and alternators, but Inter Starter is also a supplier of almost all spare parts necessary to rebuild them.

# WAREHOUSE

# REMANUFACTURING

The company's real passion though, is remanufacturing.

Currently, we regenerate more than 500 models of alternators and starters, and we regularly enrich our offer with further products to meet the growing demands of our customers.

# REMANUFACTURING

## ALTERNATORS

**Over 1300 references offered. Rebuilt exacting original equivalent, using new bearings, brushes and many other new parts. Every unit load tested.**
